

Supplier As-Built Configuration Record

Seller shall attach to each packing sheet covering shipments made under this Order a Supplier As-Built Configuration Record (SBCR) Inspection Sign-Off Sheet. This SBCR shall list all of the drawing numbers applicable to the parts being shipped and shall list the drawing change letters and applicable engineering orders to which detail parts, sub-assemblies and/or the assembly were manufactured. The SBCR shall include serial and/or lot numbers or date codes for all traceable items identified on Seller's drawings, sub-tier supplier drawings, Baseline Configuration & Processing Flysheets including all electrical, electronic, electromechanical (EEE) parts.

Seller shall use a form similar to Page 2 of this form for preparation of As-Built Configuration. A SBCR Inspection Sign-Off Sheet will be prepared for each group of parts having different configurations. Each such group shall be clearly marked in order to properly identify each group of parts to the applicable packing sheet and SBCR Inspection Sign-Off Sheet.
